Directors' Report

On behalf of the Board of Directors, I am pleased to present 23rd annual report of the Trust Investment Bank Limited for the year ended June 30, 2014.

Economic Review

Decades of internal political disputes and low levels of foreign investment have led to slow growth and underdevelopment in Pakistan. Agriculture accounts for more than one-fifth of output and two-fifths of employment. Textiles account for most of Pakistan's export earnings, and Pakistan's failure to expand a viable export base for other manufactures has left the country vulnerable to shifts in world demand. Official unemployment was 6.6% in 2013, but this fails to capture the true picture, because much of the economy is informal and underemployment remains high. Over the past few years, low growth and high inflation, led by a spurt in food prices, have increased the amount of poverty. As a result of political and economic instability, the Pakistani rupee has depreciated more than 40% since 2007. The government agreed to an International Monetary Fund Standby Arrangement in November 2008 in response to a balance of payments crisis. Although the economy has stabilized since the crisis, it has failed to recover. Foreign investment has not returned, due to investor concerns related to governance, energy, security, and a slow-down in the global economy. Remittances from overseas workers, averaging about \$1 billion a month since March 2011, remain a bright spot for Pakistan. However, after a small current account surplus in fiscal year 2011 (July 2010/June 2011), Pakistan's current account turned to deficit in the following two years, spurred by higher prices for imported oil and lower prices for exported cotton. Pakistan remains stuck in a low-income, low-growth trap, with growth averaging about 3.5% per year from 2008 to 2013. Pakistan must address long standing issues related to government revenues and energy production in order to spur the amount of economic growth that will be necessary to employ its growing and rapidly urbanizing population, more than half of which is under 22. Other long term challenges include expanding investment in education and healthcare, adapting to the effects of climate change and natural disasters, and reducing dependence on foreign donors.

Financial Results

The financial results for the year ended June 30, 2014 in comparison with June 30, 2013 are as follows:

	June 30, 2014	June 30, 2013
	(Rupees in millions)	
Revenue	116	63
Operating Expenses	78	106
Financial Expenses	13	50
Profit/ (loss) before provision & taxation	97	(81)
Provision (Reversal of Provision)	92	68
Profit/ (loss) after provision & taxation	4	(149)
Earnings/ (loss) per Share (Rs.)	0.07	(2.56)

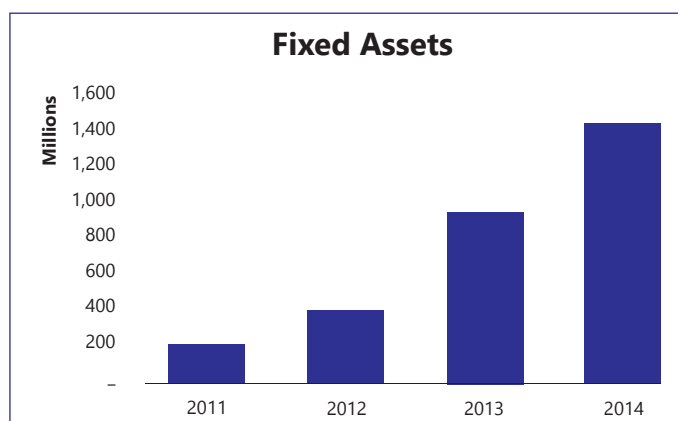

Financial Highlights

As stated earlier the business conditions in the country are not conducive for overall business and especially for the NBFC sector.

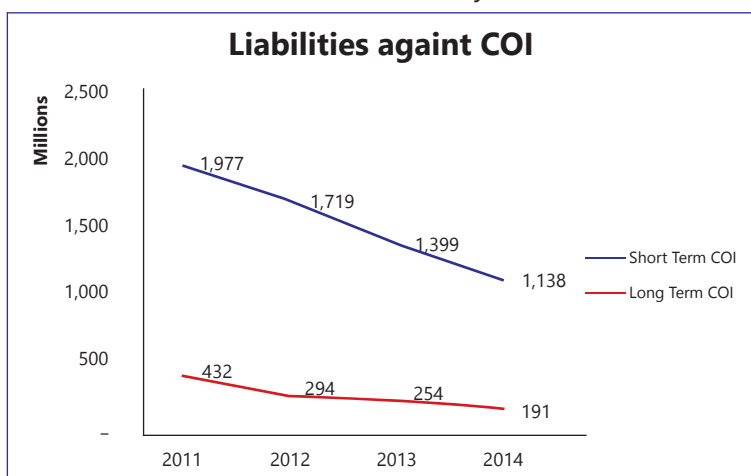

During the year bank has succeeded substantial growth in equity. As per NBFC regulations, bank is equity complied. The equity of the company has been boosted from Rs. 595 million to Rs. 1,259 million. The sponsor directors of the bank have injected the valuable properties to strengthen the equity.

Further we have achieved considerable growth of 52% in our Fixed Assets. These assets would be utilized in generating revenues and settlement of liabilities of the bank.

During the year management has focused on repayment of Certificates of Investments. The liabilities against COI's have been declined from Rs. 1,653 million in year 2013 to Rs. 1,329 million in years 2014.

Revenues and Expenditure

In year 2014, we are able to strive out the bank from continues phase of losses incurred over the previous years. TIBL is able to generate a marginal net profit of Rs. 3.9 million. Bank has significantly focused on curtailment of its operating expenses. The operating expenses have been declined by 27% over the year 2013. The Finance Cost has been reduced substantially in the light of the Management decision that no interest payment on its liabilities till the operations of the Bank strengthened to sustain its operations cost and meets all the agreed amount of principal of liabilities. Non-performing loans continues to be the major challenge for the Banking industry and Trust Investment Bank have no exception to this. During the period under review the Bank recorded provision against lease and term loan amounting to Rs. 91.8 million which adversely affected the profitability of the Bank. Due to NPLs the Bank faced liquidity crises, hence, Bank could not generate new business and secondly Bank could not meet its liabilities especially to financial institutions.

Future Outlook

The Bank has been under a lot of stress due to the pressure on the entire sector in the country as historically and as in general practice in the industry similar financial institutions as the Bank are dependent on availability of credit facilities on soft terms from major commercial financial institutions which due to the growing stress on the economy is difficult and hence Trust Investment Bank – especially the sponsoring shareholders - have developed a robust support plan, also duly endorsed by the Board, which will help the Bank to consolidate and grow during this difficult period.

This includes expansion and consolidation of the Bank's position through some "out of the box thinking" and introducing a mix of unusual and innovative financial strategies and backed by some traditional and solid structured transactional approach keeping in view the intrinsic values through in depth analysis of the transactions to be undertaken at each and every stage of their execution.

The Bank intends to achieve this through:

Traditional Approach

The Bank will continue to focus on investment in secure and quality assets. The Bank also intends to focus on Investment Finance Services receivable financing, advisory services and non – funded based income. The management anticipates continuation of a competitive and challenging work environment in the wake of subdued economic condition and will try its level best to take all necessary measures to improve the earning capacity of the Bank. And we at the Bank are very optimistic that with now the sources and expertise available we will be able to raise funds through local deposits by offering them higher rates of profit and these funds will be in turn to utilized to give the bank a firm standing and the opportunity to enter into markets which have traditionally not been tapped into by institutions from this region.

Non-Traditional Approach

In this day and age where recession has shaken the very foundation of all major financial institutions in the financial world and the prudent principals governing them there is an absolute need to take up an innovative and unusual approach fuelled by some "out of the box thinking" and "financial tailoring and tinkering" to mix up the different approaches and principals to ensure the financial life, stability and growth of an entity so as to make sure that the Bank survives this race of the survival of the fittest. This we intend to by making use of all the expertise on hand in order to raise the finance for our own liquidity and for our clients through structuring and leveraging of financial instruments hence not only growing but also strengthening and enhancing the position of the Bank.

And by using the above approach the aims of the Bank can be achieved:

Growth & Expansion

- a) Raising liquidity through the above non-traditional methods to give stability
- b) Using the funds raised through both the approaches to increase the spectrum on investment of the bank by investing into low risk and high yield projects both in Pakistan and abroad and especially in regions where the western institutions have a disadvantage due to lack of local knowledge and hence have labeled most of these areas as high risk – this we can overtake due to having ground knowledge and contacts who work in the industry and are very well connected and sincerely want to help grow their respective economies financially and socially – a vision shared by us at the Bank and hence willing to have partnerships with these locals in order to keep watch and safe guard the interests of the Bank while growing.
- c) To acquire and or establish financial institutions both locally and abroad in order to ensure that b) above is effectively and efficiently implemented and that the investments made are properly governed and the funds generated from the investors and our approaches are nurtured properly to yield best possible results.
- d) Increase the consultancy base – the bank has in existence a strong team of consultants both in house and outsourced in order to cater for all kind of financial consultancy for its clients – but now want to extend that to providing solutions of structured finance and by tailoring the various financial resources available to suit the clients requirements
- e) Increase the brokerage, asset and fund management base – as it is the Bank has ties with the top brokers of both the securities and commodities in the country who help place the investments of the bank in assured deals ensuring that the investments made not only yield a higher rate of profit but also ensure that the investment so made is secured – the bank now wants to increase this horizon of investment into securities and commodities outside of Pakistan and also with the expertise now available to it to utilize these to get into brokerage and management of international securities and instruments and to the extent of being the first point of contact for its clients globally to both cut out instruments on one hand and to monetize them on the other.
- f) To enhance ties with foreign investors whether be it for profits or for charitable purposes – to be their base away from their comfort zone and to strengthen the economy and to fulfill our social responsibility towards the country and its people.

Stability

We the shareholders and the Board of Directors at the Bank strongly believe that by implementing the support plan in its entirety the highlights of which have been briefly discussed above will not only stabilize the Bank but give stability to the clients who we treat more as one of our own and take all necessary steps in order to ensure good corporate governance but also provide good service reflected by timely and good returns. The growth and expansion will broaden the spectrum and provide the much needed diversification of the investors, the investments and the markets and industries we are yet not only virgin to us but to majority of the investors and financial institutions not only in this country but also in the region. And make us part of the much larger picture – take us global and make our presence felt in the financial world through extensive use of the knowledge pool and sheer good old simple hard work and with a little luck will help us succeed in achieving our goals. A good example of which is the recently established SWIFT protocol helping us connect with the banks globally and ensuring that our securities and instruments carry the same value as that of any other renowned institution.

Auditors Report

The overall operating performance of the Bank has improved considerably over the last year. Bank has generated a net profit of Rs. 3.9 million. It reflects that the overall operating performance has

Trust Investment Bank Limited

been better and the worst has been passed. An investment in the form of land and properties of the value of around Rs. 662 million has been made by a group of investors during the year to strengthen the equity of the Bank. Currently, the Bank has positive equity by Rs. 1,259 million after taking into consideration of subordinated loan. The Banks & financial institutions are already offered equity position in the Bank against their respective exposure and negotiation with various are underway. Securities & Exchange Commission of Pakistan (SECP) has not passed any order for suspension. of License Investment Finance Services by the Bank. Our application for renewal of license is pending with SECP and confirmation thereof is awaited from them. The rating of PACRA is withdrawn since the Bank is for the time being has been restrained to generate deposits for which the rating is mandatory. The fact discussed above certainly, reflect the overall financial position and operating performance has been improved over the corresponding period last year.

The Bank is over 23 years of its operations has been substantially engaged in leasing business and over the years has accumulated the depreciation loss near 1.45 billion up to the assessment year 2013-14. The Bank has been filling yearly tax returns under Self Assessment Scheme of 2001 of FBR. Keeping in view the figure of depreciation loss claimed by the Bank so far, and hopeful that the future taxable profits will be available against which deductible difference, unused tax losses and tax credits can be utilized.

The transfer of title of the properties in the name of the Bank is under process and it shall be transferred latest by December 31, 2014.

SECP, the regulator of NBFCs under NBFC (Establishment and Regulation) Rules 2003, itself desired the injection of shares of Tricon in the equity of the Bank. A downward adjustment in the value of the Tricon shares is not justified.

Statement On Corporate And Financial Reporting Framework

The Board of Directors and the Company remain committed to the principles of good corporate governance practices with emphasis on transparency and disclosures. The Board and management are fully cognizant with their responsibilities and monitoring Company's operation and performance to enhance the accuracy, comprehensiveness and transparency of financial and non-financial information. The Company is completely compliant with Code of Corporate Governance issued by the Securities and Exchange Commission of Pakistan. The following statements are a manifestation of its commitment towards compliance with best practices of Code of Corporate Governance:

- a) These financial statements, prepared by the management of the Bank, present fairly its state of affairs, the results of its operations, cash flows and changes in equity.
- b) Proper books of accounts of the Bank have been maintained as required by the Companies Ordinance, 1984.
- c) Appropriate accounting policies have been consistently applied in preparation of financial statements and accounting estimates are based on reasonable and prudent judgment.
- d) International Accounting Standards, as applicable in Pakistan, have been followed in preparation of financial statements.
- e) The system of internal control is sound in design and has been effectively implemented by the management and monitored by internal and external auditor as well as Audit Committee. The Board reviews the effectiveness of established internal control through Audit Committee and further improvement in the internal control systems, wherever required.

- f) The external auditor of the Bank highlighted that there is uncertainty which may cast significant doubt on the company's ability to continue as a going concern and therefore it may be unable to realize its assets and discharge its liabilities in the normal course of business. Although, management believe that Bank has adequate resources to continue in operation for the foreseeable future.
- g) There has been no material departure from the best practices of the Corporate Governance as detailed in the Listing Regulations.
- h) Key operating and financial data of last six years, in summarized form, is annexed.
- i) Information about outstanding taxes and other government levies are given in related note(s) to the accounts.
- j) During the year under review, eight (08) meetings of the Board of Directors were held. The attendance by each Director is as follows:

Name of Director	Designation	Meeting Attended
Mr. Asif Kamal	Director	8
Mr. Ahsan Rafique	Chief Executive	8
Mr. Humayun Nabi Jan	Ex-Director	1
Mr. Mamoon-Ur-Rashid	Director	7
Syed Sajjad Hussain Rizvi	Director	8

Leaves of absence were granted to the directors who could not attend the Board of Directors' Meetings.

- k) The Statement of Code of Ethics and Business Practices has been developed and acknowledged by the directors and employees of the Company.
- l) All the major decisions relating to investment or disinvestment of funds, changes in significant policies and overall corporate strategies, appointment, remuneration and terms & conditions of appointment of Chief Executive Officer and Executive Directors are taken by the Board of Directors.
- m) The Audit Committee continued to function in compliance with the Code of Corporate Governance and it comprises the following members. All members are non-executive directors out of which one is independent director.

Sr. No.	Name	Designation
1.	Syed Sajjad Hussain Rizvi	Chairman
2.	Mr. Abdul Shakeel	Member
3.	Mr. Mamoon-ur-Rasheed Qureishi	Member

Term of reference of the Audit Committee has been formulated by the Board of Directors in accordance with the Code of Corporate Governance.

Pattern of Shareholding

A statement of the pattern of shareholdings of certain classes of shareholders as per Section 236 of the Companies Ordinance, 1984, whose disclosure is required under the reporting framework, is annexed. During the period no trading of shares by the Directors, Chief Executive, Chief Financial Officer, Company Secretary and their spouses & minor children has been carried out. Detail of number of shares held by the directors and officers of the Bank is annexed.

Internal Audit

The internal control framework has been effectively implemented through an independent in-house Internal Audit function established by the Board.

The Bank's system of internal control is sound in design and has been subject to continued evaluation for effectiveness and adequacy. The Audit Committee has ensured the achievement of operational, compliance and financial reporting objectives, safeguarding of the assets of the Bank and the shareholders wealth through effective financial, operational and compliance controls and risk management at all levels within the Bank.

The Head of Internal Audit has direct access to the Chairman of the Audit Committee, and has ensured staffing of personnel with sufficient internal control system experience. The coordination between External and Internal Auditors was facilitated to ensure efficiency and contribution to the Bank's objectives, including a reliable financial reporting system and compliance with laws and regulations.

External Audit

The statutory auditors of the Bank, Zahid Jamil & Company, Chartered Accountants, have completed their audit assignment of the "Bank's Financial Statements" and the "Statement of Compliance with the Code of Corporate Governance" for the financial year ended June 30, 2014 and shall retire at the conclusion of the 22nd Annual General Meeting.

The Audit Committee of the Bank has recommended the appointment of Zahid Jamil & Company, Chartered Accountants, as the external auditors of the bank for the year ending June 30, 2014. The Board of Directors has also endorsed the recommendation made by the Audit Committee. The audit firm has been given satisfactory rating under the Quality Control Review Programme of the of the Institute Chartered Accountants of Pakistan (ICAP) and the firm is fully compliant with the International Federation of Accountants' (IFAC) Guidelines on Code of Ethics, as adopted by the ICAP.

Corporate Social Responsibility (Csr)

TIBL firmly believes in the socio-economic betterment of the society in which it serves. To fulfill its vision towards the empowerment of society, it carried out numerous social development activities and welfare projects keeping in view the greater interest of its employees, customers and beloved country on priority basis.

Significant activities:

- Internee students are appointed and trained during the year
- Recreation tour to Murree and Nathia Gali for employee has been conducted.
- Funds are donated to different charitable institutions.

Our key areas of focus in year 2014 would be education, healthcare, sports, youth development and the preservation of Pakistan's heritage monuments.

Acknowledgement

The Board would like to expresses their gratitude to valuable customers and shareholders for entrusting their confidence in the Bank which give strength to face the challenging times. We assure that we

shall remain committed to maintain high standards of the service and strong culture of corporate governance in all endeavors. We would also thanks to SECP for their continued support and patronage extended during the challenging period. The Board also acknowledges the valuable teamwork and significant contributions by the senior executives and employees of the Bank. The Board is confident that with the persistent cooperation by the SECP and committed efforts of the employees, the Bank shall be able to pursue its corporate objectives with renewed vigor.

For and on behalf of the Board of Directors

Trust Investment Bank Limited
(For Year Ended June 30, 2014)

Statement of Compliance With Best Practices of the Code of Corporate Governance

This statement is being presented to comply with the best practices of the Code of Corporate Governance (the Code) contained in listing regulations of the Karachi, Lahore and Islamabad Stock Exchanges for the purpose of establishing a framework of good governance, whereby a listed company is managed in compliance with the best practices of corporate governance.

The Company has applied the principles contained in the Code in the following manner:

1. The Company encourages representation of independent non-executive directors and directors representing minority interests on its Board. However, at present the Board includes:-

Category	Names
Independent/Non-Executive Directors	Syed Sajjad Hussain Rizvi Mr. Tariq Husain Mr. Mamoon-ur-Rashid Qureishi Mr. Abdul Shakeel Mr. Asad Ali Kazmie
Executive Director	Mr. Ahsan Rafique
Non-Executive Director	Mr. Asif Kamal

2. The directors have confirmed that none of them is serving as a director in more than seven listed companies, including this Company.
3. All the directors of the Company are registered as taxpayers and none of them has defaulted in payment of any loan to a banking company, a DFI or an NBFIs or, being a member of a stock exchange and has been declared as a defaulter by that stock exchange.
4. During the year two casual vacancies of the directors were duly filled and the Company has fulfilled all corporate and legal requirements and file necessary returns within stipulated time period.
5. The Company has prepared a Code of Conduct and has ensured that appropriate steps have been taken to disseminate it through the Company along with its supporting policies and procedures.
6. The Board has developed a Vision/Mission Statement, Overall Corporate Strategy and Significant Policies of the Company. A complete record of particulars of Significant Policies along with the dates on which they were approved or amended has been maintained.
7. All the powers of the Board have been duly exercised and decisions on material transactions, including appointment and determination of remuneration and terms and conditions of employment of the CEO and other executives and non-executive directors have been taken by the Board/shareholders.
8. The meetings of the Board were presided over by the Chairman and the Board met at least once in every quarter. Written notices of the Board meetings, along with agenda and working papers, were circulated at least seven days before the meetings. The minutes of meetings were appropriately recorded and circulated.
9. The directors are conversant with their duties and responsibilities under the relevant laws and regulations. They have not attended any orientation course during the year.
10. During the year appointment of Chief Financial Officer and Company Secretary were made consequent to the resignation of CFO and Company Secretary. The remuneration, terms and conditions of employment of

Chief Financial Officer have been determined by the CEO with the approval of the Board.

11. The Directors' Report for this year has been prepared in compliance with the requirements of the Code and fully describes the salient matters required to be disclosed.
12. The financial statements of the Company were duly endorsed by CEO and CFO before approval of the Board.
13. The Directors, CEO and executives do not hold any interest in the shares of the Company other than that disclosed in the pattern of shareholding.
14. The Company has complied with all the corporate and financial reporting requirements of the Code.
15. The Board has formed an Audit Committee. It comprises three members. Consist of non-executive directors including the Chairman of the Committee.
16. The meetings of the Audit Committee were held at least once every quarter prior to approval of interim and final results of the Company and as required by the Code. The terms of reference of the committee have been formed and advised to the committee for compliance.
17. The Board has formed HR and Remuneration Committee. It comprises three members, one executive and two non-executive directors.
18. The Board has set-up an effective internal audit function managed by suitably qualified and experienced personnel who are conversant with the policies and procedures of the Company and are involved in the internal audit function on a full time basis.
19. The statutory auditors of the Company have confirmed that they have been given a satisfactory rating under the Quality Control Review program of the Institute of Chartered Accountants of Pakistan (ICAP), that they or any of the partners of the firm, their spouses and minor children do not hold shares of the Company and that the firm and all its partners are in compliance with International Federation of Accountants (IFAC) guidelines on code of ethics as adopted by ICAP.
20. The statutory auditors or the persons associated with them have not been appointed to provide other services except in accordance with the listing regulations and the auditors have confirmed that they have observed IFAC guidelines in this regard.
21. The "closed period" prior to the announcement of interim/final results, and business decisions, which may materially affect the market price of the Company's securities, was determined and intimated to directors, employees and stock exchanges.
22. Material / sensitive information has been disseminated among all market participants at once through stock exchanges.
23. We confirm that all other material principles contained in the Code have been complied with.

On behalf of the Board

Lahore
October 9, 2014

Ahsan Rafique
Chief Executive Officer

Review Report to the Members on Statement of Compliance with Best Practices of Code of Corporate Governance

We have reviewed the statement of compliance with the best practices contained in the Code of Corporate Governance prepared by the Board of Directors of TRUST INVESTMENT BANK LIMITED to comply with the listing regulation No. 35 of Karachi Stock Exchange and Lahore Stock Exchange where the Company is listed.

The responsibility of compliance with the Code of Corporate Governance is that of the Board of Directors of the Company. Our responsibility is to review, to the extent where such compliance can be objectively verified, whether the statement of Compliance reflects the status of Company's compliance with the provisions of the Code of Corporate Governance and report if it does not. A review is limited primarily to inquiries of the Company personnel and review of various documents prepared by the company to comply with the Code.

As part of our audit of financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We have not carried out any special review of the internal control system to enable us to express an opinion as to whether the Board's statement on internal control covers all controls and the effectiveness of such internal controls.

Further, Sub-Regulation (x) of Listing Regulations 35 notified by the Karachi and Lahore Stock Exchanges require the Company to place before the board of directors for their consideration and approval related party transactions distinguishing between transactions carried out on terms equivalent to those that prevail in arm's length transactions and transactions which are not executed at arm's length price recording proper justification for using such alternate pricing mechanism. Further, all such transactions are also required to be separately placed before the audit committee. We are only required and have ensured compliance of requirement to the extent of approval of related party transactions by the board of directors and placement of such transactions before the audit committee. We have not carried out any procedures to determine whether the related party transactions were undertaken at arm's length price or not.

Based on our review, except for the matter discussed in paragraph "a to b" below nothing has come to our attention, which causes us to believe that the statement of compliance does not appropriately reflect the company's compliance, in all material respects, with the best practices contained in the code of Corporate Governance for the year ended June 30, 2014.

- a) None of the director's has obtained a certification under any director's training program offered by institutions – local or foreign – that meet the criteria specified by the SECP;
- b) Level of materiality has not been defined by the Board of Directors.

We have also expressed an adverse opinion in our audit report to the financial statements for the year ended June 30, 2014.

CHARTERED ACCOUNTANTS
(Engagement Partner: Muhammad Amin)

Auditors' Report to the Members

We have audited the annexed balance sheet of TRUST INVESTMENT BANK LIMITED as at JUNE 30, 2014 and the related profit and loss account, statement of comprehensive income, cash flow statement and statement of changes in equity together with the notes forming part thereof, for the year then ended and we state that, except for the matters referred to in paragraphs (a) to (d) below, we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit.

It is the responsibility of the Company's management to establish and maintain a system of internal control, and prepare and present the above said statements in conformity with the approved accounting standards and the requirements of the Companies Ordinance, 1984. Our responsibility is to express an opinion on these statements based on our audit.

Except for the effects, if any, of the matters referred to in paragraphs (a) to (d) below, we conducted our audit in accordance with the auditing standards as applicable in Pakistan. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the above said statements are free of any material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the above said statements. An audit also includes assessing the accounting policies and significant estimates made by management, as well as, evaluating the overall presentation of the above said statements. We believe that our audit provides a reasonable basis for our opinion and, after due verification, we report that-

- a) as described in note 1.1.2 to the financial statements, the financial statements have been prepared on going concern basis. As at balance sheet date, the Company has accumulated losses amounting to Rs. 2,292.725 million (2013: Restated Rs.2,293.796 million), shareholder's equity is negative by Rs. 1,098.868 million (2013: Restated Rs.1,100.736 million), its current liabilities exceed its current assets by Rs. 729.577 million (2013: Rs. 809.066 million) and overdue installments of financing from banking companies & financial institutions and term finance certificates (TFC) are amounting to Rs. 1,141.696 million (2013: 1,115.140 million). The company is facing operational & financial crisis. Moreover, the company is defendant / petitioner in various law suits as mentioned in note # 32 to the financial statements. The Securities & Exchange Commission of Pakistan (SECP) has not yet renewed company's license to operate Investment Finance Services (IFS) and also suspended the permission for raising deposits in any form and PACRA has withdrawn long term and short term rating of the company since November 19, 2012. These factors, along with mentioned in (b) to (d) below, indicate a material uncertainty which may cast significant doubt on the company's ability to continue as a going concern and therefore it may be unable to realize its assets and discharge its liabilities in normal course of business. The financial statements, however, do not disclose this fact and any adjustment to that effect;
- b) we could not satisfy ourselves regarding the carrying amount of deferred tax assets amounting to Rs. 515.932 million (2013: Rs. 515.932 million) in the absence of working and other related information. In our opinion, this amount should have been reversed in these financial statements in the presence of adverse financial ratios as mentioned above in paragraph (a). Had this reversal been made, non-current assets and net profit for the year would have been decreased by Rs. 515.932 million and accumulated losses would have been increased by the same amount;
- c) properties of various landlords amounting to Rs. 1,248.67 million have been injected by the sponsor directors in the form of subordinated loan in these financial statements (Refer note 21.2). Properties amounting to Rs. 779.756 million still have not been transferred in the name of the Company.
- d) we could not satisfy ourselves regarding short term investment in shares of Tricon Developers Limited (a subsidiary) amounting to Rs 1,129.005 million (refer note 14), related subordinated loan from sponsors amounting to Rs. 1,253.282 million (refer note 21) on following grounds;
 - i. the registrar of companies, Lahore circle, did not accept/approve the issue of shares of Tricon

Trust Investment Bank Limited

- Developers Limited and the matter is still pending with him, consequently, the title of these shares has not been transferred in the name of the Trust Investment Bank Limited;
- ii. non-compliance of NBFC (Establishment and regulation) Rules 2003(7) (2) (h) regarding investment in unquoted shares in any company other than wholly owned subsidiary in excess of 20% of its equity;
 - iii. the Investment in shares of Tricon Developers limited (refer note 14), related subordinate loan (refer note 21) are taken in accordance with face value of these shares at the rate of Rs.10/- per share. The breakup value is significantly lower than the face value of these shares, as per available audited financial statements of Tricon Developers Limited for the year ended June 30, 2013. However, no adjustment to that effect has been made in these financial statements. Financial impact of the same is impracticable in the absence of relevant information.
- e) in our opinion, except for the effects, if any, of the matters referred to in paragraphs (a) to (d) above, proper books of accounts have been kept by the Company as required by the Companies Ordinance, 1984;
- f) in our opinion, except for the effects, if any, of the matters referred to in paragraphs (a) to (d) above-
- i. the balance sheet and profit and loss account together with the notes thereon, have been drawn up in conformity with the Companies Ordinance, 1984, and are in agreement with the books of account and are further in accordance with accounting policies consistently applied except for the changes as stated in note 5.15 to the annexed financial statements.
 - ii. the expenditures incurred during the year were for the purpose of the Company's business; and
 - iii. the business conducted, investments made and the expenditures incurred during the year were in accordance with the objects of the Company;
- g) in our opinion and to the best of our information and according to the explanations given to us, because of the matters as discussed in paragraphs '(a)' to '(d)' above, the balance sheet, profit and loss account, statement of comprehensive income, cash flow statement and statement of changes in equity together with the notes forming part thereof, do not conform with approved accounting standards as applicable in Pakistan, and, do not give the information required by the Companies Ordinance, 1984, in the manner so required and respectively do not give a true and fair view of the state of the Company's affairs as at JUNE 30, 2014 and of the profit, comprehensive income, its cash flows and changes in equity for the year then ended; and
- h) in our opinion, Zakat deductible at source under the Zakat and Ushr Ordinance, 1980 was not deducted and deposited by the company in the Central Zakat Fund established under section 7 of that.

Notwithstanding our adverse opinion, we draw attention to:

- I. Note # 18.3, Preference shares have been treated as part of equity in view of the requirements of the Companies Ordinance, 1984 and the matter of its classification will be dealt in accordance with the clarification sought by the Institute of Chartered Accountants of Pakistan from the Securities and Exchange Commission of Pakistan.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2014

1 LEGAL STATUS AND NATURE OF BUSINESS

Trust Investment Bank Limited and its subsidiary company ("the Group") comprises of holding company Trust Investment Bank Limited ("TIBL") and a wholly owned subsidiary company Trust Capital (Private) Limited ("TCPL").

1.1. Parent Company

1.1.1. Trust Investment Bank Limited ("the Company") was incorporated in 1992 as a public limited Company under the Companies Ordinance, 1984 and is listed on Lahore, Karachi and Islamabad Stock Exchanges. The registered office of the Company is situated at 6th Floor, M M Tower, 28 - A / K, Gulberg II, Lahore. The Company is mainly engaged in the business of investment finance services. It is classified as a Non-Banking Finance Company (NBFC) and is regulated by the Securities and Exchange Commission of Pakistan (SECP).

The Pakistan Credit Rating Agency Limited (PACRA) has withdrawn the long term (previously "D") and short term (previously "D") credit rating since November 19, 2012.

1.1.2 The accumulated losses of the company amounts to Rs. 2, 292.724/- million as at balance sheet date, and the company's license to operate investment finance services is pending for renewal by the SECP as of the balance sheet date. These conditions indicate the existence of a material uncertainty regarding the future operations of the company. However, in order to improve the equity of the company, during the year as stated in note # 21, the Shareholder of the Bank has approved the acquisition of such number of ordinary shares of Tricon Developers Limited from Mr. Asif Kamal and properties from new sponsors, which are required to comply with Minimum Equity Requirement (MER) as per NBFC Rules & Regulations. The shares and property acquired through aforesaid transactions has been treated as a subordinated loan which is available for issuance of shares of Trust Bank. These transaction has strengthen the equity of the bank and bank is equity complied and it may increase dividend earnings and capital appreciation since it is expected that shares in the investee company will generate reasonable profits in future. Also during the year the company has successfully negotiated settlement with major deposit holders against the properties owned by it and negotiations with other depositors and financial institutions are in process. The preference shares amounting to Rs.100.37 million have been converted into ordinary shares. The future interest cost and preference dividend have been saved. Also with the support of recovery agents, the company is pursuing its customers / borrowers very aggressively. These measures are expected to contribute towards improvement in the financial condition of the company. Based on the above and the financial projections as prepared by the company for future periods the management is confident that the company shall continue and further improve its business growth during the coming years resulting in improvement of its profitability. Hence these financial statements are prepared on going concern basis.

1.2 Subsidiary Company

1.2.1 Trust Capital (Private) Limited was incorporated as a private limited company on 20 June 2008 under the Companies Ordinance, 1984. TCPL is engaged in the business of stock brokerage, portfolio management and trading in listed securities on all the three Stock Exchanges of Pakistan. The registered office of TCPL is located at 6th Floor, M M Tower, 28 - A / K, Gulberg II, Lahore. TCPL is a member of the Lahore Stock Exchange (Guarantee) Limited.

2 STATEMENT OF COMPLIANCE

2.1. These financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board as are notified under the Companies Ordinance, 1984, the Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 (the NBFC Rules), the Non-Banking Finance Companies and Notified Entities Regulation, 2008 (the NBFC Regulation) and the directives issued by the Securities and Exchange Commission of Pakistan (SECP). Wherever the requirements of the Companies Ordinance 1984, the NBFC Rules, the NBFC Regulations or the directives issued by the SECP differ with the requirements of IFRS, the requirements of the Companies Ordinance 1984, the NBFC Rules, the NBFC Regulation or the directives issued by the SECP shall prevail.

Trust Investment Bank Limited

The SECP has deferred the applicability of International Accounting Standard (IAS) 39, 'Financial Instruments: Recognition and Measurement' and International Accounting Standard (IAS) 40, 'Investment Property' through Circular No. 19 dated 13 August 2003 for Non-Banking Finance Companies (NBFCs) providing investment finance services, discounting services and housing finance services. In addition, the SECP has also deferred the application of International Financial Reporting Standard (IFRS)7, 'Financial Instruments: Disclosures' through SRO 411(1) / 2008 on such Non-Banking Finance Companies as are engaged in investment finance services, discounting services and housing finance services.

2.2. Standards, interpretations and amendments to published approved accounting standards that are effective during the year

IFRS 7	Financial instruments: Disclosures (Amendment)
IAS 1	Presentation of Financial Statements - (Amendment)
IAS 19	Employee Benefits (Revised)
IFRIC 20	Stripping Cost in the Production Phase of a Surface Mine.

The adoption of the above standards, amendments and interpretations did not have any effect on the financial statements.

2.3. Standards, interpretations and amendments to published approved accounting standards that are not yet effective

The following revised standards and interpretations with respect to approved accounting standards as

Standard or Interpretation	Effective date (accounting periods Beginning on or after)
IFRS 7 Financial Instruments: Disclosures (Amendment)	1-Jan-15
IFRS 10 Consolidated financial statements	1-Jan-15
IFRS 11 Joint arrangements	1-Jan-15
IFRS 12 Disclosure of interest in Other Entities	1-Jan-15
IFRS 13 Fair Value Measurement	1-Jan-15
IAS 16 & 38 - Clarification of Acceptable Method of Depreciation and Amortization	1-Jan-16
IAS 16 & 41 - Agriculture Bearer Plants	1-Jan-16
IAS 19 Employee Benefits (Amendment)	1-Jul-14
IAS 27 Separate Financial Statements (Revised)	1-Jan-15
IAS 28 Investment in Associates and Joint Ventures (Revised)	1-Jan-15
IAS 32 Offsetting Financial Assets and Financial Liabilities (Amendment)	1-Jan-14
IAS-36 Recoverable amount disclosures for Non-Financial Assets (Amendment)	1-Jan-14
IAS-39 Financial Instruments: Recognition and measurement-on novation of derivatives	1-Jan-14
IFRIC 21 Levies	1-Jan-14

There are other new accounting standards, amendments to approved accounting standards and interpretations that are mandatory for future years. However, those that are not considered relevant to the Company and therefore are not expected to materially affect the financial statements of the Company for accounting periods on dates prescribed therein.

3. BASIS OF CONSOLIDATION

The consolidated financial statements comprise the financial statements of the Group and its subsidiaries as at 30 June 2014.

Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases. The financial statements of the subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting policies. All intra-group balances, income and expenses, unrealised gains and losses and dividends resulting from intra-group transactions are eliminated in full.

A change in the ownership interest of a subsidiary, without a change of control, is accounted for as an equity transaction.

Losses are attributed to the non-controlling interest even if that results in a deficit balance.

If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary
- Derecognises the carrying amount of any non-controlling interest
- Derecognises the cumulative translation differences, recorded in equity
- Recognises the fair value of the consideration received
- Recognises the fair value of any investment retained
- Recognises any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognised in other comprehensive income to Profit or loss.

4. BASIS OF MEASUREMENT

4.1. Accounting convention

These financial statements have been prepared under the historical cost convention except for revaluation of certain financial instruments and property at fair value and recognition of certain employee retirement benefits at present value.

4.2. Significant estimates

The preparation of financial statements in conformity with approved accounting standards requires management to make judgments, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions and judgments are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the result of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognized in the period in which the estimate is revised if the revision effects only that period, or in the period of revision and future periods if the revision affects both current and future periods. The areas where various assumptions and estimates are significant to Company's financial statements or where judgments were exercised in application of accounting policies are as follows:

	Note
- Taxation	5.1
- Residual value and useful life of depreciable assets	5.2
- Provisions	5.6
- Staff retirement benefits (Gratuity)	5.15
- Impairment	5.21

5 SIGNIFICANT ACCOUNTING POLICIES

5.1. Taxation Current:

The charge for current taxation is based on taxable income at current rate of taxation of the Income Tax Ordinance, 2001 after taking into account applicable tax credits and rebates, if any.

Deferred:

Deferred tax is recognized using the balance sheet liability method on all temporary differences between the amounts attributed to assets and liabilities for financial reporting purposes and amounts used for taxation purposes.

Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which deductible difference, unused tax losses and tax credits can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized. Deferred tax is calculated at the rates that are expected to apply to the period when differences reverse based on tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is charged or credited to income statement, except in case of items credited or charged to equity, in which case it is included in equity.

5.2. Property and equipment

These are stated at historical cost/revalued amount less accumulated depreciation and impairment losses, if any.

Depreciation is calculated using the diminishing balance method, except vehicles for which straight line method is used, at the rates specified in the fixed assets schedule, which are considered appropriate to write off the cost of the assets over their estimated useful lives.

Full month's depreciation is charged on the additions during the month in which asset is available for use, while no depreciation is charged in the month in which the asset is disposed off.

Normal repairs and maintenance are charged to revenue as and when incurred. Renewals and replacements are capitalized when it is probable that respective future economic benefits will flow to the Company and the cost of the items can be reliably measured, and assets so replaced, if any, are retired. Gains and losses on disposal of property and equipment are recognized in the profit and loss account in the year of disposal.

5.3. Intangible assets

These are stated at cost less impairment losses, if any. The carrying amounts are reviewed at each balance sheet date to assess whether these are recorded in excess of their recoverable amounts, and where carrying value is in excess of recoverable amount, these are written down to their estimated recoverable amount.

Expenditure incurred to acquire computer software are capitalized as intangible assets and stated at cost less accumulated amortization and any identified impairment loss. Intangible assets are amortized using the straight- line method over a period of 10 years.

Full month's amortization is charged on the additions during the month in which asset is available for use, while no depreciation is charged in the month in which the asset is disposed off.

5.4. Non current assets - held for sale

Non-current assets classified as held for sale are measured at the lower of carrying amount and fair value less cost to sell. Non-current assets are classified as held for sale if their carrying amount will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probably and the asset is available for immediate sale in present conditions. Management must be committed to the sale, which should be expected to qualify for recognition as completes sale within one year from the date of classification.

Property and equipment and intangible assets once classified as held for sale are not depreciated or amortized.

5.5. Financial instruments

Financial assets:

Significant financial assets include long term investments, long term loans and advances, net investment in lease finance, long term deposits, short term loans and advances, short term placements, short term investment, other receivables and cash and bank balances. Finances and receivables from clients are stated at their nominal value as reduced by provision for doubtful finances and receivable, while other financial assets are stated at cost except for certain investments, which are revalued as per accounting policies.

Financial liabilities:

Financial liabilities are classified according to the substance of the contractual arrangements entered into. Significant financial liabilities include certificates of investment, preference shares, long term loans and borrowings, deposits against lease arrangements, short term borrowings, trade and other payables and dividends payable. Markup based financial liabilities are recorded at gross proceeds received. Other liabilities are stated at their nominal value.

Recognition and derecognition:

All the financial assets and financial liabilities are recognized at the time when the Company becomes a party to the contractual provisions of the instruments. Financial assets are derecognized when the Company loses control of the contractual rights that comprise the financial assets. Financial liabilities are derecognized when these are extinguished i.e. when the obligation specified in the contract is discharged, cancelled or expired. Any gain or loss on derecognition of the financial assets and liabilities is taken to the income in the current period.

The policies in respect of these financial instruments have been disclosed in the relevant policy notes.

Offsetting of financial assets and financial liabilities:

A financial asset and a financial liability is offset and the net amount is reported in the balance sheet if the Company has legal enforceable right to set off the recognized amount and intends either to settle on a net basis or to realize the assets and settle the liability simultaneously. Corresponding income on assets and charge on liability are reported at net amount.

5.6. Provisions

A provision is recognized when the Company has a present legal or constructive obligation as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation. Provision has been made after taking the benefits of collaterals as per NBFC Regulations, 2008.

5.7. Investments

The Company classifies its investments other than in subsidiary as held to maturity, available for sale and held for trading.

Initial measurement:

All financial assets are recognised initially at fair value plus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs.

Subsequent measurement:

Investment in subsidiary:

Investment in subsidiary company is measured at cost as per the requirements of IAS-27 "Consolidated and Separate Financial Statements". However, at subsequent reporting dates, the Company reviews the carrying amounts of the investments and its recoverability to determine whether there is an indication that such investments have suffered an impairment loss. If any such indication exists, the carrying amount of the investment is adjusted to the extent of impairment loss. Impairment losses are recognized as an expense currently.

The Company is required to issue consolidated financial statements along with its separate financial statements, in accordance with the requirements of IAS 27 "Consolidated and Separate Financial Statements". Investment in associated undertakings, in the consolidated financial statements, are being accounted for using the equity method.

Trust Investment Bank Limited

Held to maturity:

The investments with fixed maturity or determinable payments where management has both intent and ability to hold to maturity are classified as held to maturity. These are stated at amortized cost using the effective interest rate method less impairment, if any. The amortization for the period is charged to the profit and loss account.

Held for trading:

These include investments which are acquired principally for the purpose of generating profit from short term fluctuations in price or dealer's margins, are classified as investments held for trading. These are stated at fair values with any resulting surplus/(deficit) recognized in the profit and loss account.

Available-for-sale:

Investments which can not be classified as held to maturity investments or held for trading investments are classified as available for sale investments.

Investments intended to be held for an unidentified period of time, which may be sold in response to need for liquidity or changes to interest rates, exchange rates or equity prices are classified as available for sale.

Available-for-sale investments are measured at subsequent reporting dates at fair value for those shares which have fair values. However, all such shares for which fair value cannot be determined are valued at cost. Surplus/(deficit) on remeasurement is kept in a separate account and is shown in the balance sheet below the shareholders' equity, until the security is disposed off or is determined to be impaired, at which time, the cumulative surplus/(deficit) is included in the profit and loss account.

However, as allowed by the BSD circular no. 10 dated 13 July 2004, the Company will be free to determine the extent of holding under the above categories taking into consideration various aspects such as trading strategies, intention of acquisition of securities, capital position, expertise available to manage investment portfolio, and the risk management capabilities. Under exceptional circumstances, shifting from one category to another category may be made subject to the following conditions:

- Shifting of investments to/from held to maturity category is allowed once a year only with the approval of the Board of Directors within two months of the commencement of accounting year. Any further shifting to/from this category is not allowed during the remaining part of that accounting year.
- Shifting to/from available for sale category is allowed with the approval of the Assets and Liabilities Committee (ALCO) subject to the condition that the reasons for such shifting will be recorded in writing.
- Shifting from held for trading category to available for sale or held to maturity categories is generally not allowed. It is permitted under exceptional circumstances like not being able to sell the securities within the prescribed period of 90 days due to tight liquidity position in market or extreme market volatility with the approval of ALCO. The justification for such exceptional shifting of securities is recorded in the minutes of ALCO meeting. Shifting of securities from one category to another is at the lower of the market value or the acquisition cost/book value, and the diminution in value, if any, on such transfer is fully provided for.

The measurement of surplus/(deficit) is done on portfolio basis for each of the above three categories separately.

5.8. Trade and settlement date accounting

All "regular way" purchases and sales of listed shares are recognized on the trade date, i.e. the date that the Company commits to purchase/sell the asset. Regular way purchase or sale of financial assets are those, the contract for which requires delivery of assets within the time frame established generally by regulation or convention in the market place concerned.

5.9. Securities under repurchase/reverse repurchase agreements

Transactions of repurchase/reverse repurchase of investment securities are entered into at contracted rate for specified periods of time and are accounted for as follows.

Repurchase agreements:

Investments sold with the simultaneous commitment to repurchase at a specified future date (Repo) continue to be recognized in the balance sheet and are measured in accordance with accounting policies for investments. The counterparty liability for amounts received under these agreements is included in short term borrowing. The difference between sale and repurchase price is treated as markup on short term borrowing and accrued over the tenure of the repo agreement.

Reverse repurchase agreements:

Investments purchased with a simultaneous commitment to resell at a specified future date (Reverse repo) are not recognized in the balance sheet. Amounts paid under these agreements are recorded as 'short term placements'. The difference between purchase and resale price is treated as return from funds placement with financial institutions or income from reverse repurchase transactions of listed shares, as the case may be, and accrued over the life of reverse repo agreement.

5.10. Term finances

Term finances originated by the Company are stated at cost less any amount written off and provision for doubtful finances, if any, in accordance with NBFCs prudential regulations.

5.11. Net investment in lease finance

Lease where the Company transfers substantially all the risks and rewards incidental to ownership of the asset to the lessee are classified as finance leases. Net investment in lease finances is recognized at an amount equal to the aggregate of minimum lease payments including any guaranteed residual value and excluding unearned finance income, write-offs and provision for doubtful lease finances, if any.

5.12. Assets acquired in satisfaction of claims

The company acquires certain vehicles and assets in settlement of non-performing loans / leases. These are stated at lower of the original cost of the related asset, exposure to Trust Investment Bank Limited and the net realizable value. The net gains or losses on disposal of these assets are taken to the profit and loss account.

5.13. Revenue recognition

Finance leases:

The "financing method" is used for recognition of finance income on finance leases. Under this method, the unearned finance income i.e., the excess of aggregate lease rentals and the estimated residual value over the net investment is deferred and then amortized to income over the term of the lease on a systematic basis, so as to produce a constant rate of return on the Company's net investment in the finance lease.

Capital gains and losses on sale of investments:

Capital gains or losses on sale of investments are recognized in the period in which they arise.

Processing fee, front end fee and penal charges:

These are recognized as income when services are provided.

Return on finances, placements and term finances:

Return on finances provided, placements and term finances are recognized on time proportion basis.

Morabaha income:

Mark-up/profit earned on finance under morabaha agreement and finance under buy-back agreement is recognized on a time proportion basis taking account of, where applicable, the relevant buy-back dates and prices, or where a specific schedule of recoveries is prescribed in the agreement, the respective dates when mark-up is required to be paid to the Company.

Income on bank deposits, held to maturity investments and reverse repo transactions:

Income from bank deposits, investments and reverse repo transactions is recognized on time proportion basis.

Guarantee commission:

Commission income from guarantee is recognized on time proportion basis.

Dividend Income:

Dividend income is recognized when right to receive dividend is established.

5.14. Return on certificates of investment

Return on certificates of investment is recognized on a time proportion basis taking into account the relevant issue date and final maturity date.

5.15. Staff retirement benefits

Gratuity:

The Company operates an approved funded gratuity scheme for all of its permanent employees subject to a minimum qualifying period of six months of service. Provisions are made in accordance with the actuarial valuation using 'Projected Unit Credit method'. Actuarial gains and losses arising as a result of actuarial valuation are recognized in other comprehensive income in the year in which they arise. Gratuity is payable to employees on the completion of prescribed qualifying period of service under the scheme.

During the year the Company has adopted Revised IAS 19 - "Employee Benefits". As per revised standard, actuarial gains and losses for defined benefit plans are recognized in other comprehensive income when they occur. Amounts recorded in profit and loss are limited to current and past service cost, gains or losses on settlements, and net interest income (expenses). All other changes in the net defined benefit assets (liability) are recognized in other comprehensive income with no subsequent recycling to profit and loss.

The adoption of above revised standard has resulted in change in accounting policy of the Company related to recognition of actuarial gains and losses to recognized actuarial gains and losses in total in the other comprehensive income in the period in which they occur. Previously, actuarial gains and losses arising as a result of actuarial valuation were recognized as income or expense to the extent that the net cumulative unrecognized actuarial gains or losses at the end of the previous reporting period exceeded 10% of the higher of present value of defined benefit obligation and the fair value of the plan assets as at that date. These gains or losses are recognized over the expected average remaining lives of the employees participating in the plan.

This change in accounting policy has been accounted for retrospectively as required under International Accounting Standard - 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', and the comparative financial statements has been restated. The impact of the said changes on these financial statements is as under:

	Rupees	
	2014	2013
Net increase in profit and loss account	2,117,915	4,914,290
Net decrease in other comprehensive income	2,117,915	447,893
Net increase in accumulated losses	-	4,466,397

Leave encashment:

The Company operates an unfunded leave encashment scheme for all of its permanent employees. Provisions are made in accordance with the actuarial valuation using 'Projected Unit Credit method'.

5.16. Provision for potential lease losses and loans

Provision for potential lease losses and loan losses is maintained at a level which is adequate to provide for potential losses on lease and loan portfolio in accordance with Prudential Regulations for NBFCs. Specific provision for potential lease and loan losses is maintained at a level which, in the judgment of the management, is adequate to provide potential losses on lease and loan portfolio that can be reasonably anticipated. Provision is increased by charge to income and is decreased by charge offs, net of recoveries.

Leases, loans and advances are written off when there are no realistic prospects of recovery

5.17. Cash and cash equivalents

For the purpose of cash flow statement, cash and cash equivalents comprise of cash in hand, balance with banks on current and deposit accounts and short term running finance account.

5.18. Borrowing costs

The borrowing cost incurred on debts of the Company is charged to income.

5.19. Transactions with related parties and transfer pricing

Parties are said to be related, if they are able to influence the operating and financial decisions of the Company and vice versa.

The Company enters into transactions with related parties on arms length basis. Prices for transactions with related parties are determined using admissible valuation methods, except for the assets sold to employees at written down value as approved by the board of directors.

5.20. Foreign currency translation

Transactions denominated in foreign currencies are translated to Pak Rupee at the foreign exchange rate ruling at the date of transaction. Assets and liabilities in foreign currency are translated at the rates of exchange prevailing on the balance sheet date All exchange gains/losses are taken to the profit and loss account

5.21. Impairment

The carrying amounts of the assets are reviewed at each balance sheet date to identify the circumstances indicating the occurrence of impairment loss or reversal of previous impairment losses. If any such indication exists, the recoverable amount of such asset is estimated and impairment loss is recognized in the profit and loss account. Where an impairment loss subsequently reverses, the carrying amount of such asset is increased to the revised recoverable amount. A reversal of the impairment loss is recognized in income.

5.22. Dividends

Dividend is recognized as a liability in the period in which it is declared.

5.23. Bonus shares

Bonus shares are recognized as an appropriation from profit in the period in which it is declared.

9.1. The Company has entered into various lease agreements with implicit rate of return ranging from 8% to 25% (2013: 8% to 25%) per annum. Security deposit is obtained generally upto 10% to 20% of the cost of leased assets at the time of disbursement. The Company requires the lessees to insure the leased assets in the favour of the Company and to maintain the financial ratios required by NBFC's Prudential regulations. Additional lease rentals are charged on the delayed payments. Generally leases are secured against title of leases assets but in some cases the leases are also secured against demand promissory notes of the lessees and personal guarantees of the directors and in case of individual lessees, two personal guarantees. Moreover, certain leases are additionally secured by mortgage of immovable property.

9.2. These leases pertain to previous years as the company does not have license for lease now.

89,202,873	89,202,873		892,028,729	892,028,729

Trust Investment Bank Limited

18.1. Mr. Zahid Rafiq and Genesis Securities (Pvt) Limited, related parties of the Bank held 5,702,405 (9.74%) [2013: 5,702,405 (9.74%)] and 12,209,742 (20.85%) [2013: 122,097,420 (20.85%)] Ordinary shares of Rs. 10 each respectively, as at June 30,2014.

18.2. These are un-listed cumulative non-voting preference shares, each of Rs.10/-, issued against the adjustment of financing facilities and carry preference dividend @ 1 year KIBOR + 100 BPS which is payable in priority to ordinary shareholders. The dividend remained unpaid, shall be carried forward to future years and be paid in chronological order

The Company may exercise the Call Option and repurchase these preference shares from investors from the commencement of 3rd anniversary, by giving 30 days notice, in accordance with following

schedule	- 3rd to 4th anniversary	upto 25%
	- 4th to 5th anniversary	upto 50%
	- After 5th anniversary	upto 100%

Further, these preference shares are convertible into ordinary shares of the Company at the option of investors from the 3rd anniversary till the 5th anniversary by giving thirty day notice in advance in following manner:

- 3rd to 4th anniversary	upto 25%
- 4th to 5th anniversary	upto 50%
- After 5th anniversary	upto 100%

The conversion ratio (A/B) for such issue is as follows:

A= Rupees ten (10/-) plus unpaid dividend, if any, on each preference share

B= Higher of following:

- Face value of shares
- Average discounted price of the ordinary share quoted in the daily quotation of KSE during the last twelve months prior to the conversion date

As the fair value of financial liability is equal to fair value of financial instrument and intrinsic value of financial instrument is nil so the whole amount is recognized as financial liability.

18.3. The above stated preference shares have been treated as part of equity on the following basis:

- The preference shares were issued under the provision of Section 86 of the Companies Ordinance, 1984 (the Ordinance) read with Section 90 of the Ordinance and the Companies Share Capital (Variation in Rights and Privileges) Rules, 2000.
- The authorized capital of the Company and the issue of the preference shares were duly approved by the shareholders of the Company at the Extraordinary General Meeting held on May 02, 2005.
- Return of allotment of shares was filed under Section 93(1) of the Ordinance.
- Dividend on the preference shares is appropriation of profit both under the Ordinance and the tax
- The requirements of the Ordinance take precedence over the requirements of IFRSs.

However, considering the requirements of the IFRSs for classification of debt and equity instruments, which suggests that the above preference shares be classified as debt, the ICAP has sought a clarification from the SECP in respect of the presentation of preference shares in the financial statements prepared in accordance with the requirements of the Companies Ordinance, 1984. Pending the decision of the SECP in this matter, the preference shares have been reflected as equity of the Company.

18.4. Particulars of Preference Shares

		<u>2014</u>	<u>2013</u>
		Rupees	Rupees
Saudi Pak Industrial & Agricultural Investment Company		15,000,000	20,000,000

		<u>1,779,912,742</u>	<u>1,841,213,448</u>

30. MARK-UP ACCRUED

Secured

- Short and long term financing		89,375,472	89,375,472
- Term finance certificates	30.1	16,913,910	16,913,910
- Certificates of investment		-	196,278
		<u>106,289,382</u>	<u>106,485,660</u>

Unsecured

- Certificates of investment		162,680,220	140,684,631
		<u>268,969,602</u>	<u>247,170,291</u>

30.1. It includes Rs. 1,986,254/- (2013: 1,986,254) payable to Trust Capital (Pvt.) Limited (Subsidiary company)

31. TRADE AND OTHER PAYABLES

Advance receipt against finance facilities	31.1	8,064,822	8,064,822
Unclaimed dividend		3,096,984	3,096,984
Preference dividend payable		58,023,278	58,023,278
Accrued liabilities		16,517,299	11,575,105
Other liabilities	31.2, 31.3	77,461,275	98,427,241
		<u>163,163,658</u>	<u>179,187,430</u>

31.1 These represent initial security deposit received against financing facilities

31.2. These include withholding tax payable Rs.19.966 million (2013: Rs.17.529 million), central excise duty payable Rs. 6.968 million (2013: Rs. 5.020 million) and Zakat payable Rs. 3,499/- (2013: Rs.3,499/-).

31.3. It also includes Rs. 1.897 Million (2013 Rs. 6.202) Million payable to Tricon Developers Limited (subsidiary company) against transfer of various houses of "Tricon Village". These houses were transferred from Allied Developers on behalf of Tricon Developers Limited

32. CONTINGENCIES AND COMMITMENTS

32.1. Contingencies

- The Company has issued guarantees to various parties on behalf of clients amounting to Rs. 574.848 million (2013: Rs. 1,235.752 million)
- The Company has filed recovery suits amount to Rs. 1,428.42 million (2013: Rs. 1,654.98 million). Prima facie the Bank has good arguable cases, the financial impact of the same has been accounted for in these financial statements.

Following litigations are pending against Trust Bank in the court of law:

	Rs. in million
Privatization Commission of Pakistan	396.5
The bank of Punjab	315.5
Levi's Strauss Pakistan (Pvt.) Limited	100.0
Punjab Provincial Co-operative Bank Limited	103.0
Shifa Co-operative Housing Society	5.0
Shifa international Hospital	10.0
Trading Corporation of Pakistan	95.7
House Building Finance Company	6.6
Summit Bank Limited	95.9
IGI Investment Bank Limited	73.0
Standard Chartered Bank Limited	56.3
Kasb Bank Limited	26.2
National Transmission and Distribution Company	118.8
Lyari Development Authority	168.8

- (c) The delayed payment of income tax withheld and CED may attract additional surcharge and penal action (refer note # 31.2).
- (d) The company has not provided for mark-up of Rs. 371.928 in preceding year and Rs.296.594 million during the year on financing from banking companies & other financial institutions, term finance certificates, preference shares, certificates of Investment, long term morabaha and on running finance in these financial statements due to pending litigations. Had the markup been provided net loss for the year would have been increased by Rs. 296.594 million, mark up payable and accumulated losses would have been increased by Rs. 668.522 million;

32.2. Commitments

32.2.1 There exists no commitment as at balance sheet date.

45.1. FINANCIAL RISK MANAGEMENT

45.1.1. Financial risk factors

The bank's activities expose it to a variety of financial risks: market risk (including currency risk, other price risk and interest rate risk), credit risk and liquidity risk. The Bank's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance.

Risk management is carried out by the Board of Directors (the Board) of the management company, chief operating officer and chief financial officer. The Board provides principles for overall risk management, as well as policies covering specific areas such as currency risk, other price risk, interest rate risk, credit risk and liquidity risk.

(a) Market risk

(i) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Currency risk arises mainly from future commercial transactions or receivables and payables that exist due to transactions in foreign currencies.

The bank is not exposed to currency risk arising from currency exposure as it is not involved in foreign currency

(ii) Equity price risk

Equity price risk represents the risk that the fair value of equity investments will fluctuate because of changes in levels of indices, whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instrument traded in the market. The bank is exposed to equity price risk as bank hold available for sale and held for trading investments.

		2014 21973	2013 21005
	Changes in KSE all Index	Effects on Profit Before Tax	Effects on Equity
Reporting date all index points			
		(Rupees)	
Available for sale investment			
	+10%	-	665,160
2014	-10%	-	(665,160)
	+10%	-	748,547
2013	-10%	-	(748,547)

(iii) Profit rate risk

This represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market mark up rates.

The bank has no fixed rate instruments. The bank's mark up/profit rate risk arises from long term financing, short term financing, investments and lease.

At the balance sheet date the interest rate profile of the bank's mark up bearing financial instruments was:

	2014 Rupees	2013 Rupees
Floating rate instruments		
Financial assets		
Bank balances - deposit accounts	8,487,377	5,306,213
Short term placements	4,000,000	4,858,663
Short term loans and advances	72,462,301	109,038,553
Long term investments	57,010,189	97,633,013
Lease rental receivables	1,015,882,828	1,208,932,641
Long term loans and advances	436,646,515	447,051,626

Fair value sensitivity analysis for fixed rate instruments

The bank does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rate at the balance sheet date would not affect profit or loss of the bank

(b) Credit risk

Credit risk represents the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was as follows:

Bank balances	8,731,571	5,550,407
Short term placements	4,000,000	4,858,663
Short term investments	1,129,005,480	1,093,005,480

The bank has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The bank has internally developed rating criteria to rate its customers which is supplemented by ratings supplied by independent rating agencies where available. The bank also uses other publicly available financial information and its own trading records to rate its customers. The bank's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties. Credit exposure is controlled by counterparty limits that are reviewed annually.

The management monitors and limits bank's exposure to credit risk through monitoring of clients' credit exposure, reviews and conservative estimates of provisions for doubtful receivables, if any, and through the prudent use of collateral policy. The management is of the view that it is not exposed to significant concentration of credit risk as its financial assets are adequately diversified in organizations of sound financial standing covering various industrial sectors and segments.

45.4. Capital risk management

The company's objective when managing capital is to safeguard its ability to continue as a going concern and to meet the regulatory capital requirement as prescribed by the SECP. Currently, the Company is required to maintain equity of Rs. 700 million for investment finance services. For the purposes of minimum equity requirement, the equity of the Company includes paid up share capital, reserves, accumulated profits / losses, surplus on revaluation of fixed assets subordinated loans and redeemable preference shares

Further, in accordance with the requirements of NBFC regulations, the minimum equity requirement for NBFCs has been raised to Rs. 1,000 million, to be achieved in a phased manner by 30 June 2014. The Company expects that it would be able to meet such enhanced requirement through profitable operations in future.

Investment in financial instruments	Investment in Term Finance Certificates and Sukuks
Advances to employees	Advances to employees and others

51.3. Figures have been rounded off to the nearest of rupee.

CHIEF EXECUTIVE

DIRECTOR

Consolidated Financial Statements

Trust Investment Bank Limited
(For Year Ended June 30, 2014)

Auditors' Report to the Members

We have audited the annexed consolidated financial statements comprising of consolidated balance sheet of **TRUST INVESTMENT BANK LIMITED** ("the company") and its subsidiary as at **JUNE 30, 2014** and the consolidated related profit and loss account, consolidated statement of comprehensive income, consolidated cash flow statement and consolidated statement of changes in equity together with the notes forming part thereof, for the year then ended. We have also expressed a separate adverse opinion on the financial statements of the **TRUST INVESTMENT BANK LIMITED**. The financial statements of the subsidiary company, Trust Capital (Private) Limited, however was audited by another firm of chartered accountants, whose unaudited initially signed report has been furnished to us and our opinion, in so far as it relates to the amounts included for such company, is based solely on the unaudited initially signed report of such auditors.

These financial statements are the responsibility of the Holding Company's management. Our responsibility is to express our opinion on the financial statements based on our audit.

Our audit was conducted in accordance with the International Standards on Auditing and accordingly included such test of accounting records and such other auditing procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion and, after due verification, we report that:-

- a) as described in note 1.1.2 to the financial statements, the financial statements have been prepared on going concern basis. As at balance sheet date, the Company has accumulated losses amounting to Rs. 2,292.725 million (2013: Restated Rs.2,293.796 million), shareholder's equity is negative by Rs. 1,098.867 million (2013: Restated Rs.1,100.736 million), its current liabilities exceed its current assets by Rs. 756.473 million (2013: Rs. 949.775 million) and overdue installments of financing from banking companies & financial institutions and term finance certificates (TFC) are amounting to Rs. 1,132.324 million (2013: 1,105.769 million). The company is facing operational & financial crisis. Moreover, the company is defendant / petitioner in various law suits as mentioned in note # 32 to the financial statements. The Securities & Exchange Commission of Pakistan (SECP) has not yet renewed company's license to operate Investment Finance Services (IFS) and also suspended the permission for raising deposits in any form and PACRA has withdrawn long term and short term rating of the company since November 19, 2012. These factors, along with mentioned in (b) to (e) below, indicate a material uncertainty which may cast significant doubt on the company's ability to continue as a going concern and therefore it may be unable to realize its assets and discharge its liabilities in normal course of business. The financial statements, however, do not disclose this fact and any adjustment to that effect;
- b) we could not satisfy ourselves regarding the carrying amount of deferred tax assets amounting to Rs. 515.932 million (2013: Rs. 515.932 million) in the absence of working and other related information. In our opinion, this amount should have been reversed in these financial statements in the presence of adverse financial ratios as mentioned above in paragraph (a). Had this reversal been made, non-current assets and net profit for the year would have been decreased by Rs. 515.932 million and accumulated losses would have been increased by the same amount;
- c) properties of various landlords amounting to Rs. 1,248.67 million have been injected by the sponsor directors in the form of subordinated loan in these financial statements (Refer note 21.2). Properties amounting to Rs. 779.756 million still have not been transferred in the name of the Company.
- d) we could not satisfy ourselves regarding short term investment in shares of Tricon Developers Limited (a subsidiary) amounting to Rs 1,129.005 million (refer note 14), related subordinated loan from sponsors amounting to Rs. 1,253.282 million (refer note 21) on following grounds;

- i. the registrar of companies, Lahore circle, did not accept/approve the issue of shares of Tricon Developers Limited and the matter is still pending with him, consequently, the title of these shares has not been transferred in the name of the Trust Investment Bank Limited;
 - ii. non-compliance of NBFC (Establishment and regulation) Rules 2003(7) (2) (h) regarding investment in unquoted shares in any company other than wholly owned subsidiary in excess of 20% of its equity;
 - iii. the Investment in shares of Tricon Developers limited (refer note 14), related subordinate loan (refer note 21) are taken in accordance with face value of these shares at the rate of Rs.10/- per share. The breakup value is significantly lower than the face value of these shares, as per available audited financial statements of Tricon Developers Limited for the year ended June 30, 2013. However, no adjustment to that effect has been made in these financial statements. Financial impact of the same is impracticable in the absence of relevant information.
- e) the company has neither provided the audited financial statements of the Tricon Developers Limited for the year ended June 30, 2014 nor prepared the consolidated financial statements with the Tricon Developers Limited (refer note 14) to the consolidated financial statements. So we are unable to quantify the consolidated financial effect in the absence of the relevant record.
- f) in our opinion, except for the effects, if any, of the matters referred to in paragraphs (a) to (e) above, proper books of accounts have been kept by the Company as required by the Companies Ordinance, 1984;
- g) in our opinion, except for the effects, if any, of the matters referred to in paragraphs (a) to (e) above-
- i. the balance sheet and profit and loss account together with the notes thereon, have been drawn up in conformity with the Companies Ordinance, 1984, and are in agreement with the books of account and are further in accordance with accounting policies consistently applied except for the changes as stated in note 5.15 to the annexed financial statements.
 - ii. the expenditures incurred during the year were for the purpose of the Company's business; and
 - iii. the business conducted, investments made and the expenditures incurred during the year were in accordance with the objects of the Company;
- h) in our opinion and to the best of our information and according to the explanations given to us, because of the matters as discussed in paragraphs '(a)' to '(e)' above, the consolidated statements do not present fairly, the financial position of TRUST INVESTMENT BANK LIMITED and its subsidiary company as at June 30, 2014 and the result of their operations, their cash flows and changes in equity for the year then ended in accordance with the approved accounting standards as applicable in Pakistan.

Notwithstanding our adverse opinion, we draw attention to:

- I. Note # 18.3, Preference shares have been treated as part of equity in view of the requirements of the Companies Ordinance, 1984 and the matter of its classification will be dealt in accordance with the clarification sought by the Institute of Chartered Accountants of Pakistan from the Securities and Exchange Commission of Pakistan.

CHIEF EXECUTIVE

DIRECTOR

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2014

1. LEGAL STATUS AND NATURE OF BUSINESS

Trust Investment Bank Limited and its subsidiary company ("the Group") comprises of holding company Trust Investment Bank Limited ("TIBL") and a wholly owned subsidiary company Trust Capital (Private) Limited ("TCPL).

1.1. Parent Company

1.1.1 Trust Investment Bank Limited ("the Company") was incorporated in 1992 as a public limited Company under the Companies Ordinance, 1984 and is listed on Lahore, Karachi and Islamabad Stock Exchanges. The registered office of the Company is situated at 6th Floor, M M Tower, 28 - A / K, Gulberg II, Lahore. The Company is mainly engaged in the business of investment finance services. It is classified as a Non-Banking Finance Company (NBFC) and is regulated by the Securities and Exchange Commission of Pakistan (SECP).

The Pakistan Credit Rating Agency Limited (PACRA) has withdrawn the long term (previously "D") and short term (previously "D") credit rating since November 19, 2012.

1.1.2 The financial statements for the year ended June 30, 2014 reflect profit after taxation of Rs. 3.986 million and as of the said date, the accumulated losses of the company amounts to Rs. 2,292.72 million resulting in shortfall of the minimum regulatory requirement of the equity. Further, the company's license to operate investment finance services is pending for renewal by the SECP as of the balance sheet date. These conditions indicate the existence of a material uncertainty regarding the future operations of the company. However, in order to improve the equity of the company, subsequent to the year as stated in note # 21, the Shareholder of the Bank has approved the acquisition of such number of ordinary shares of Tricon Developers Limited from Mr. Asif Kamal and property from new sponsors, which are required to comply with Minimum Equity Requirement (MER) as per NBFC Rules & Regulations. The shares and property acquired through aforesaid transactions shall be treated as a subordinated loan which shall be available for issuance of shares of Trust Bank. Sanction of approval from SECP is in progress. These transaction shall strengthen the equity of the bank and as a result the bank shall become equity compliant and it may increase dividend earnings and capital appreciation since it is expected that shares in the investee company will generate reasonable profits in future. Also during the year the company has successfully negotiated settlement with major deposit holders against the properties owned by it and negotiations with other depositors and financial institutions are in process. We are also in process of converting our preference shares in to ordinary shares. This will result in future interest cost and preference dividend savings to the company. Also with the support of recovery agents, the company is pursuing its customers /borrowers very aggressively. These measures are expected to contribute towards improvement in the financial condition of the company. Based on the above and the financial projections as prepared by the company for future periods the management is confident that the company shall continue and further improve its business growth during the coming years resulting in improvement of its profitability. Hence these financial statements are prepared on going concern basis.

1.2 Subsidiary Company

1.2.1 Trust Capital (Private) Limited was incorporated as a private limited company on 20 June 2008 under the Companies Ordinance, 1984. TCPL is engaged in the business of stock brokerage, portfolio management and trading in listed securities on all the three Stock Exchanges of Pakistan. The registered office of TCPL is located at 6th Floor, M M Tower, 28 - A / K, Gulberg II, Lahore. TCPL is a member of the Lahore Stock Exchange (Guarantee) Limited

2. STATEMENT OF COMPLIANCE

2.1. These financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board as are notified under the Companies Ordinance, 1984, the Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 (the NBFC Rules), the Non-Banking Finance Companies and Notified Entities Regulation, 2008 (the NBFC Regulation) and the directives issued by the Securities and Exchange Commission of Pakistan (SECP). Wherever the requirements of the Companies Ordinance 1984, the NBFC Rules, the NBFC Regulations or the directives issued by the SECP differ with the requirements of IFRS, the requirements of the Companies Ordinance 1984, the NBFC Rules, the NBFC Regulation or the directives issued by the SECP shall prevail.

The SECP has deferred the applicability of International Accounting Standard (IAS) 39, 'Financial Instruments: Recognition and Measurement' and International Accounting Standard (IAS) 40, 'Investment Property' through Circular No. 19 dated 13 August 2003 for Non-Banking Finance Companies (NBFCs) providing investment finance services, discounting services and housing finance services. In addition, the SECP has also deferred the application of International Financial Reporting Standard (IFRS)7, 'Financial Instruments: Disclosures' through SRO 411(1) / 2008 on such Non-Banking Finance Companies as are engaged in investment finance services, discounting services and housing finance services.

2.2. Standards, interpretations and amendments to published approved accounting standards that are effective during the year

IFRS 7	Financial Instruments: Disclosures - (Amendments)
IAS 1	Presentation of Financial Statements - (Amendment)
IAS 19	Employee Benefits (Revised)
IFRIC 20	Stripping Cost in the Production Phase of a Surface Mine.

The adoption of the above standards, amendments and interpretations did not have any effect on the financial statements.

2.3. Standards, interpretations and amendments to published approved accounting standards that are not yet effective

The following revised standards and interpretations with respect to approved accounting standards as applicable in Pakistan

Standard or Interpretation		Effective date (accounting periods Beginning on or after)
IFRS 7	Offsetting Financial Assets and Financial Liabilities (Amendments to IFRS 7)	1-Jan-15
IFRS 10	Consolidated Financial Statements	1-Jan-15
IFRS 11	Joint Arrangements	1-Jan-15
IFRS 12	Disclosure of Interest in Other Entities	1-Jan-15
IFRS 13	Fair Value Measurement	1-Jan-15
IAS 16 & 38	Clarification of Acceptable Method of Depreciation and Amortization	1-Jan-16
IAS 16 & 41	Agriculture Bearer Plants	1-Jan-16
IAS 19	Employee Benefits (Amendment)	1-Jul-14
IAS 27	Separate Financial Statements (Revised)	1-Jan-15
IAS 28	Investment in Associates and Joint Ventures (Revised)	1-Jan-15
IAS 32	Offsetting Financial Assets and Financial Liabilities (Amendment)	1-Jan-14
IAS-36	Recoverable amount disclosures for Non-Financial Assets (Amendment)	1-Jan-14
IAS-39	Financial Instruments: Recognition and measurement-on novation of derivatives and	1-Jan-14
IFRIC 21	Levies	1-Jan-14

3. BASIS OF CONSOLIDATION

The consolidated financial statements comprise the financial statements of the Group and its subsidiaries as at 30 June 2014.

Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases. The financial statements of the subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting policies. All intra-group balances, income and expenses, unrealised gains and losses and dividends resulting from intra-group transactions are eliminated in full.

A change in the ownership interest of a subsidiary, without a change of control, is accounted for as an equity transaction.

Losses are attributed to the non-controlling interest even if that results in a deficit balance.

If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary
- Derecognises the carrying amount of any non-controlling interest
- Derecognises the cumulative translation differences, recorded in equity
- Recognises the fair value of the consideration received
- Recognises the fair value of any investment retained
- Recognises any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognised in other comprehensive income to profit or loss.

4. BASIS OF MEASUREMENT

4.1. Accounting convention

These financial statements have been prepared under the historical cost convention except for revaluation of certain financial instruments and property at fair value and recognition of certain employee retirement benefits at present value.

4.2. Significant estimates

The preparation of financial statements in conformity with approved accounting standards requires management to make judgments, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions and judgments are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the result of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognized in the period in which the estimate is revised if the revision effects only that period, or in the period of revision and future periods if the revision affects both current and future periods. The areas where various assumptions and estimates are significant to Company's financial statements or where judgments were exercised in application of accounting policies are as follows:

	Note
- Taxation	5.1
- Residual value and useful life of depreciable assets	5.2
- Provisions	5.6
- Staff retirement benefits (Gratuity)	5.15
- Impairment	5.21

5. SIGNIFICANT ACCOUNTING POLICIES

5.1. Taxation

Current:

The charge for current taxation is based on taxable income at current rate of taxation of the Income Tax Ordinance, 2001 after taking into account applicable tax credits and rebates, if any.

Deferred:

Deferred tax is recognized using the balance sheet liability method on all temporary differences between the amounts attributed to assets and liabilities for financial reporting purposes and amounts used for taxation purposes.

Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which deductible difference, unused tax losses and tax credits can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized. Deferred tax is calculated at the rates that are expected to apply to the period when differences reverse based on tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is charged or credited to income statement, except in case of items credited or charged to equity, in which case it is included in equity.

5.2. Property and equipment

These are stated at historical cost/revalued amount less accumulated depreciation and impairment losses, if any.

Depreciation is calculated using the diminishing balance method, except vehicles for which straight line method is used, at the rates specified in the fixed assets schedule, which are considered appropriate to write off the cost of the assets over their estimated useful lives.

Full month's depreciation is charged on the additions during the month in which asset is available for use, while no depreciation is charged in the month in which the asset is disposed off.

Normal repairs and maintenance are charged to revenue as and when incurred. Renewals and replacements are capitalized when it is probable that respective future economic benefits will flow to the Company and the cost of the items can be reliably measured, and assets so replaced, if any, are retired.

Gains and losses on disposal of property and equipment are recognized in the profit and loss account in the year of disposal.

5.3. Intangible assets

These are stated at cost less impairment losses, if any. The carrying amounts are reviewed at each balance sheet date to assess whether these are recorded in excess of their recoverable amounts, and where carrying value is in excess of recoverable amount, these are written down to their estimated recoverable amount.

Expenditure incurred to acquire computer software are capitalized as intangible assets and stated at cost less accumulated amortization and any identified impairment loss. Intangible assets are amortized using the straight-line method over a period of 10 years.

Full month's amortization is charged on the additions during the month in which asset is available for use, while no depreciation is charged in the month in which the asset is disposed off.

5.4. Non current assets - held for sale

Non-current assets classified as held for sale are measured at the lower of carrying amount and fair value less cost to sell. Non-current assets are classified as held for sale if their carrying amount will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset is available for immediate sale in present conditions. Management must be committed to the sale, which should be expected to qualify for recognition as completes sale within one year from the date of classification.

Property and equipment and intangible assets once classified as held for sale are not depreciated or amortized.

5.5. Financial instruments

Financial assets:

Significant financial assets include long term investments, long term loans and advances, net investment in lease finance, long term deposits, short term loans and advances, short term placements, short term investment, other receivables and cash and bank balances. Finances and receivables from clients are stated at their nominal value as reduced by provision for doubtful finances and receivable, while other financial assets are stated at cost except for certain investments, which are revalued as per accounting policies.

Financial liabilities:

Financial liabilities are classified according to the substance of the contractual arrangements entered into. Significant financial liabilities include certificates of investment, preference shares, long term loans and borrowings, deposits against lease arrangements, short term borrowings, trade and other payables and dividends payable. Markup based financial liabilities are recorded at gross proceeds received. Other liabilities are stated at their nominal value.

Recognition and derecognition:

All the financial assets and financial liabilities are recognized at the time when the Company becomes a party to the contractual provisions of the instruments. Financial assets are derecognized when the Company loses control of the contractual rights that comprise the financial assets. Financial liabilities are derecognized when these are extinguished i.e. when the obligation specified in the contract is discharged, cancelled or expired. Any gain or loss on derecognition of the financial assets and liabilities is taken to the income in the current period.

The policies in respect of these financial instruments have been disclosed in the relevant policy notes.

Offsetting of financial assets and financial liabilities:

A financial asset and a financial liability is offset and the net amount is reported in the balance sheet if the Company has legal enforceable right to set off the recognized amount and intends either to settle on a net basis or to realize the assets and settle the liability simultaneously. Corresponding income on assets and charge on liability are reported at net amount.

5.6. Provisions

A provision is recognized when the Company has a present legal or constructive obligation as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation. Provision has been made after taking the benefits of collaterals as per NBFC Regulations 2008.

5.7. Investments

The Company classifies its investments other than in subsidiary as held to maturity, available for sale and held for trading.

Initial measurement:

All financial assets are recognised initially at fair value plus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs.

Subsequent measurement:**Investment in subsidiary:**

Investment in subsidiary company is measured at cost as per the requirements of IAS-27 "Consolidated and Separate Financial Statements". However, at subsequent reporting dates, the Company reviews the carrying amounts of the investments and its recoverability to determine whether there is an indication that such investments have suffered an impairment loss. If any such indication exists, the carrying amount of the investment is adjusted to the extent of impairment loss. Impairment losses are recognized as an expense currently.

The Company is required to issue consolidated financial statements along with its separate financial statements, in accordance with the requirements of IAS 27 "Consolidated and Separate Financial Statements". Investment in associated undertakings, in the consolidated financial statements, are being accounted for using the equity method.

Held to maturity:

The investments with fixed maturity or determinable payments where management has both intent and ability to hold to maturity are classified as held to maturity. These are stated at amortized cost using the effective interest rate method less impairment, if any. The amortization for the period is charged to the profit and loss account.

Held for trading:

These include investments which are acquired principally for the purpose of generating profit from short term fluctuations in price or dealer's margins, are classified as investments held for trading. These are stated at fair values with any resulting surplus/(deficit) recognized in the profit and loss account.

Available-for-sale:

Investments which can not be classified as held to maturity investments or held for trading investments are classified as available for sale investments.

Investments intended to be held for an unidentified period of time, which may be sold in response to need for liquidity or changes to interest rates, exchange rates or equity prices are classified as available for sale.

Available-for-sale investments are measured at subsequent reporting dates at fair value for those shares which have fair values. However, all such shares for which fair value cannot be determined are valued at cost. Surplus/(deficit) on remeasurement is kept in a separate account and is shown in the balance sheet below the shareholders' equity, until the security is disposed off or is determined to be impaired, at which time, the cumulative surplus/(deficit) is included in the profit and loss account.

However, as allowed by the BSD circular no. 10 dated 13 July 2004, the Company will be free to determine the extent of holding under the above categories taking into consideration various aspects such as trading strategies, intention of acquisition of securities, capital position, expertise available to manage investment portfolio, and the risk management capabilities. Under exceptional circumstances, shifting from one category to another category may be made subject to the following conditions:

- Shifting of investments to/from held to maturity category is allowed once a year only with the approval of the Board of Directors within two months of the commencement of accounting year. Any further shifting to/from this category is not allowed during the remaining part of that accounting year.
- Shifting to/from available for sale category is allowed with the approval of the Assets and Liabilities Committee (ALCO) subject to the condition that the reasons for such shifting will be recorded in writing.
- Shifting from held for trading category to available for sale or held to maturity categories is generally not allowed. It is permitted under exceptional circumstances like not being able to sell the securities within the prescribed period of 90 days due to tight liquidity position in market or extreme market volatility with the approval of ALCO. The justification for such exceptional shifting of securities is recorded in the minutes of ALCO meeting. Shifting of securities from one category to another is at the lower of the market value or the acquisition cost/book value, and the diminution in value, if any, on such transfer is fully provided for.

The measurement of surplus/(deficit) is done on portfolio basis for each of the above three categories separately.

5.8. Trade and settlement date accounting

All "regular way" purchases and sales of listed shares are recognized on the trade date, i.e. the date that the Company commits to purchase/sell the asset. Regular way purchase or sale of financial assets are those, the contract for which requires delivery of assets within the time frame established generally by regulation or convention in the market place concerned.

5.9. Securities under repurchase/reverse repurchase agreements

Transactions of repurchase/reverse repurchase of investment securities are entered into at contracted rate for specified periods of time and are accounted for as follows.

Repurchase agreements:

Investments sold with the simultaneous commitment to repurchase at a specified future date (Repo) continue to be recognized in the balance sheet and are measured in accordance with accounting policies for investments. The counterparty liability for amounts received under these agreements is included in short term borrowing. The difference between sale and repurchase price is treated as markup on short term borrowing and accrued over the tenure of the repo agreement.

Reverse repurchase agreements:

Investments purchased with a simultaneous commitment to resell at a specified future date (Reverse repo) are not recognized in the balance sheet. Amounts paid under these agreements are recorded as 'short term placements'. The difference between purchase and resale price is treated as return from funds placement with financial institutions or income from reverse repurchase transactions of listed shares, as the case may be, and accrued over the life of reverse repo agreement.

5.10. Term finances

Term finances originated by the Company are stated at cost less any amount written off and provision for doubtful finances, if any, in accordance with NBFCs prudential regulations.

5.11. Net investment in lease finance

Lease where the Company transfers substantially all the risks and rewards incidental to ownership of the asset to the lessee are classified as finance leases. Net investment in lease finances is recognized at an amount equal to the aggregate of minimum lease payments including any guaranteed residual value and excluding unearned finance income, write-offs and provision for doubtful lease finances, if any.

5.12. Assets acquired in satisfaction of claims

The company acquires certain vehicles and assets in settlement of non-performing loans / leases. These are stated at lower of the original cost of the related asset, exposure to Trust Investment Bank Limited and the net realizable value. The net gains or losses on disposal of these assets are taken to the profit and loss account.

5.13. Revenue recognition

Finance leases:

The "financing method" is used for recognition of finance income on finance leases. Under this method, the unearned finance income i.e., the excess of aggregate lease rentals and the estimated residual value over the net investment is deferred and then amortized to income over the term of the lease on a systematic basis, so as to produce a constant rate of return on the Company's net investment in the finance lease.

Capital gains and losses on sale of investments:

Capital gains or losses on sale of investments are recognized in the period in which they arise.

Processing fee, front end fee and penal charges:

These are recognized as income when services are provided.

Return on finances, placements and term finances:

Return on finances provided, placements and term finances are recognized on time proportion basis.

Morabaha income:

Mark-up/profit earned on finance under morabaha agreement and finance under buy-back agreement is recognized on a time proportion basis taking account of, where applicable, the relevant buy-back dates and prices, or where a specific schedule of recoveries is prescribed in the agreement, the respective dates when mark-up is required to be paid to the Company.

Income on bank deposits, held to maturity investments and reverse repo transactions:

Income from bank deposits, investments and reverse repo transactions is recognized on time proportion basis.

Guarantee commission:

Commission income from guarantee is recognized on time proportion basis.

Dividend Income:

Dividend income is recognized when right to receive dividend is established.

5.14. Return on certificates of investment

Return on certificates of investment is recognized on a time proportion basis taking into account the relevant issue date and final maturity date.

5.15. Staff retirement benefits

Gratuity:

The Company operates an approved funded gratuity scheme for all of its permanent employees subject to a minimum qualifying period of six months of service. Provisions are made in accordance with the actuarial valuation using 'Projected Unit Credit method'. Actuarial gains and losses arising as a result of actuarial valuation are recognized in other comprehensive income in the year in which they arise. Gratuity is payable to employees on the completion of prescribed qualifying period of service under the scheme.

During the year the Company has adopted Revised IAS 19 - "Employee Benefits". As per revised standard, actuarial gains and losses for defined benefit plans are recognized in other comprehensive income when they occur. Amounts recorded in profit and loss are limited to current and past service cost, gains or losses on settlements, and net interest income (expenses). All other changes in the net defined benefit assets (liability) are recognized in other comprehensive income with no subsequent recycling to profit and loss.

The adoption of above revised standard has resulted in change in accounting policy of the Company related to recognition of actuarial gains and losses to recognized actuarial gains and losses in total in the other comprehensive income in the period in which they occur. Previously, actuarial gains and losses arising as a result of actuarial valuation were recognized as income or expense to the extent that the net cumulative unrecognized actuarial gains or losses at the end of the previous reporting period exceeded 10% of the higher of present value of defined benefit obligation and the fair value of the plan assets as at that date. These gains or losses are recognized over the expected average remaining lives of the employees participating in the plan. This change in accounting policy has been accounted for retrospectively as required under International Accounting Standard - 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', and the comparative financial statements has been restated. The impact of the said changes on these financial statements is as under:

	2014	Rupees 2013
Net increase in profit and loss account	2,117,915	4,914,290
Net decrease in other comprehensive income	2,117,915	447,893
Net increase in accumulated losses	-	4,466,397

Leave encashment:

The Company operates an unfunded leave encashment scheme for all of its permanent employees. Provisions are made in accordance with the actuarial valuation using 'Projected Unit Credit method'.

5.16. Provision for potential lease losses and loans

Provision for potential lease losses and loan losses is maintained at a level which is adequate to provide for potential losses on lease and loan portfolio in accordance with Prudential Regulations for NBFCs. Specific provision for potential lease and loan losses is maintained at a level which, in the judgment of the management, is adequate to provide potential losses on lease and loan portfolio that can be reasonably anticipated. Provision is increased by charge to income and is decreased by charge offs, net of recoveries.

Leases, loans and advances are written off when there are no realistic prospects of recovery.

5.17. Cash and cash equivalents

For the purpose of cash flow statement, cash and cash equivalents comprise of cash in hand, balance with banks on current and deposit accounts and short term running finance account.

5.18. Borrowing costs

The borrowing cost incurred on debts of the Company is charged to income.

5.19. Transactions with related parties and transfer pricing

Parties are said to be related, if they are able to influence the operating and financial decisions of the Company and vice versa.

The Company enters into transactions with related parties on arms length basis. Prices for transactions with related parties are determined using admissible valuation methods, except for the assets sold to employees at written down value as approved by the board of directors.

5.20. Foreign currency translation

Transactions denominated in foreign currencies are translated to Pak Rupee at the foreign exchange rate ruling at the date of transaction. Assets and liabilities in foreign currency are translated at the rates of exchange prevailing on the balance sheet date. All exchange gains/losses are taken to the profit and loss account.

5.21. Impairment

The carrying amounts of the assets are reviewed at each balance sheet date to identify the circumstances indicating the occurrence of impairment loss or reversal of previous impairment losses. If any such indication exists, the recoverable amount of such asset is estimated and impairment loss is recognized in the profit and loss account. Where an impairment loss subsequently reverses, the carrying amount of such asset is increased to the revised recoverable amount. A reversal of the impairment loss is recognized in income.

5.22. Dividends

Dividend is recognized as a liability in the period in which it is declared.

5.23. Bonus shares

Bonus shares are recognized as an appropriation from profit in the period in which it is declared.

6. FIXED ASSETS	Note	2014 Rupees	2013 Rupees

9.1. The Company has entered into various lease agreements with implicit rate of return ranging from 8% to 25% (2013: 8% to 25%) per annum. Security deposit is obtained generally upto 10% to 20% of the cost of leased assets at the time of disbursement. The Company requires the lessees to insure the leased assets in the favour of the Company and to maintain the financial ratios required by NBFC's Prudential regulations. Additional lease rentals are charged on the delayed payments

Generally leases are secured against title of leases assets but in some cases the leases are also secured against demand promissory notes of the lessees and personal guarantees of the directors and in case of individual lessees, two personal guarantees. Moreover, certain leases are additionally secured by mortgage of immovable property.

9.2. These leases pertain to previous years as the company does not have license for lease now.

89,202,873	89,202,873		892,028,729	892,028,729

Trust Investment Bank Limited

18.1. Mr. Zahid Rafiq and Genesis Securities (Pvt) Limited, related parties of the Bank held 5,702,405 (9.74%) [2013: 5,702,405 (9.74%)] and 12,209,742 (20.85%) [2013: 122,097,420 (20.85%)] Ordinary shares of Rs. 10 each respectively, as at June 30,2014.

18.2. These are un-listed cumulative non-voting preference shares, each of Rs.10/-, issued against the adjustment of financing facilities and carry preference dividend @ 1 year KIBOR + 100 BPS which is payable in priority to ordinary shareholders. The dividend remained unpaid, shall be carried forward to future years and be paid in chronological order.

The Company may exercise the Call Option and repurchase these preference shares from investors from the commencement of 3rd anniversary, by giving 30 days notice, in accordance with following schedule:

- 3rd to 4th anniversary	upto 25%
- 4th to 5th anniversary	upto 50%
- After 5th anniversary	upto 100%

Further, these preference shares are convertible into ordinary shares of the Company at the option of investors from the 3rd anniversary till the 5th anniversary by giving thirty day notice in advance in following manner:

- 3rd to 4th anniversary	upto 25%
- 4th to 5th anniversary	upto 50%
- After 5th anniversary	upto 100%

The conversion ratio (A/B) for such issue is as follows:

A= Rupees ten (10/-) plus unpaid dividend, if any, on each preference share

B= Higher of following:

- Face value of shares
- Average discounted price of the ordinary share quoted in the daily quotation of KSE during the last twelve months prior to the conversion date

As the fair value of financial liability is equal to fair value of financial instrument and intrinsic value of financial instrument is nil so the whole amount is recognized as financial liability.

18.3. The above stated preference shares have been treated as part of equity on the following bases:

- The preference shares were issued under the provision of Section 86 of the Companies Ordinance, 1984 (the Ordinance) read with Section 90 of the Ordinance and the Companies Share Capital (Variation in Rights and Privileges) Rules, 2000.
- The authorized capital of the Company and the issue of the preference shares were duly approved by the shareholders of the Company at the Extraordinary General Meeting held on May 02, 2005.
- Return of allotment of shares was filed under Section 93(1) of the Ordinance.
- Dividend on the preference shares is appropriation of profit both under the Ordinance and the tax laws.
- The requirements of the Ordinance take precedence over the requirements of IFRSs.

However, considering the requirements of the IFRSs for classification of debt and equity instruments, which suggests that the above preference shares be classified as debt, the ICAP has sought a clarification from the SECP in respect of the presentation of preference shares in the financial statements prepared in accordance with the requirements of the Companies Ordinance, 1984. Pending the decision of the SECP in this matter, the preference shares have been reflected as equity of the Company.

18.4. Particulars of Preference Shares

	2014	2013
	Rupees	Rupees
Saudi Pak Industrial & Agricultural Investment Company	15,000,000	20,000,000
Pak Brunei Investment Company Limited	4,875,000	6,500,000
AMZ Income Fund (KASB Liquid Fund)	-	130,000,000

(iii) Profit rate risk

This represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market mark up rates.

The bank has no fixed rate instruments. The bank's mark up/profit rate risk arises from long term financing, short term financing, investments and lease.

At the balance sheet date the interest rate profile of the bank's mark up bearing financial instruments was:

	2014 Rupees	2013 Rupees
Floating rate instruments		
Financial assets		
Bank balances - deposit accounts	8,487,377	5,306,213
Short term placements	4,000,000	4,858,663
Short term loans and advances	72,462,301	109,038,553
Long term investments	46,980,660	186,011,284
Lease rental receivables	1,015,882,828	1,208,932,641
Long term loans and advances	436,646,515	447,051,626

Fair value sensitivity analysis for fixed rate instruments

The bank does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rate at the balance sheet date would not affect profit or loss of the bank.

(b) Credit risk

Credit risk represents the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was as follows:

Bank balances	12,399,322	5,846,666
Short term placements	4,000,000	4,858,663
Short term investments	1,129,005,480	1,103,131,980
Short term loans and advances-net	72,462,301	109,038,553
Markup accrued	201,981,288	203,091,749
Other receivables	132,214,384	22,948,859
Long term investments	46,980,660	186,011,284
Lease rental receivables	1,015,882,828	1,208,932,641
Long term loans and advances	436,646,515	447,051,626
	<u>3,051,572,778</u>	<u>3,290,912,021</u>

Geographically all credit exposure is concentrated in Pakistan.

The maximum exposure to credit risk for receivables (term loan and lease rental receivables) at the reporting date by type of customer was:

Chemical & fertilizer	7,443,746	12,031,759
Construction / Real Estate	85,337,931	137,936,646

Trade and other payables	<u>132,311,547</u>
45.4. Capital risk management	<u><u>5,367,658,591</u></u>

The company's objective when managing capital is to safeguard its ability to continue as a going concern and to meet the regulatory capital requirement as prescribed by the SECP. Currently, the Company is required to maintain equity of Rs. 700 million for investment finance services. For the purposes of minimum equity requirement, the equity of the Company includes paid up share capital, reserves, accumulated profits / losses, surplus on revaluation of fixed assets, subordinated loans and redeemable preference shares.

Further, in accordance with the requirements of NBFC regulations, the minimum equity requirement for NBFCs has been raised to Rs. 1,000 million, to be achieved in a phased manner by 30 June 2014. The Company expects that it would be able to meet such enhanced requirement through profitable operations in future.

48. SEGMENT ANALYSIS

Trust investment bank activities are broadly categorized into two primary business segments namely financing activities and investing activities.

Financing activities

Financing activities include providing long-term and short term financing facilities to corporate and individual customers including lease financing.

Investment activities

Investment activities include money market activities, investment in government securities and capital market activities.
